

# START YOUR **OWN** BUSINESS

- No money upfront
- No overhead
- No risk
- Huge profits

This affiliate program is so good, it is just like owning your own business, only much better.

# Free Isn't Like Free Anymore

**Referring people to play free games may not sound very lucrative. But boy oh boy that couldn't be more wrong!**

360WIN is not only taking Free to a whole new level, but the word revolutionary to a whole new level as well.

- A real solution to the world's gambling problem
- Real funding for worthy causes and charities
- Real rewards for players
- And real money for you

# How it Works

360WIN hosts free tournaments to raise money for charities. When a player wins, a matching donation is made to that player's chosen charity. Another matching prize is rewarded to the person who referred that player, YOU!

The uniqueness with 360WIN begins with the high chances of winning and the level of cash and prizes that can be won. Currently, an average player is playing 3.5 games per visit at 360WIN. If this rate of play stays consistent, and we believe it won't, we believe that rates of play will skyrocket once we expand globally, then the amount you could make for referring an average player would be.

Drumroll Please

**\$12.74/Month**

# How it's Possible

**Where the money comes from:** *I knew you were wondering.*

To play in 360WIN's amazing tournaments, a player must first win an entry by playing in a Qualifying Game. During the qualifying game, players are going to have the game periodically interrupted by a commercial break. Unlike a TV commercial break, these videos are more entertaining and have a multiple choice question about the ad that rewards the players who paid enough attention to get it right. These unique ads pay for the winner's entry fees so the players can all play for free. The amount raised with this type of monetization is greater than pay sites enjoy, allowing 360WIN to offer higher prizes with better chances of winning -- and all Risk-Free.

# How to get Started

Wait, aren't we going to tell you how if you get 1000 people to play you could make \$12,740 in cash and prizes each month?

NO

You can do your own math. We just need to tell you this: Click here to get started:
